**PROVIDING CONTINUITY SOLUTIONS FOR ADVICE BUSINESSES  
& THEIR CLIENTS.**

**Advisers who have practised for many years are now faced with an uncertain, risky & less profitable future.**

## **ENTER YOUR INSURANCE BOOK - SPECIALTY ADVISERS PROVIDING OPTIMAL ADVICE.**

Your Insurance Book provides the solution to exiting and concerned Financial Advisers by empowering them to exit their business gracefully, or just take a break from the industry until the landscape settles, all while retaining exposure to the upside of their business. They can rest easy knowing that their clients will have access to either high quality or low cost scaled advice as required. We are also developing a dedicated claims service that will be staffed by experienced industry professionals.

## OFFERING OWNERS A POWERFUL CONTINUITY SOLUTION

Offering owners what is effectively a hedging position where the owner can step away from the business for a fixed term, while retaining upside exposure to their client base for the duration.

The owner receives an income without working and has the time to go on an extended holiday, undertake study, start other businesses & projects - Freedom - while Your Insurance Book and its network look after its clients.

## OPTION TO RE-ACQUIRE YOUR CLIENTS

At the end of the term, owners are offered the opportunity to purchase back their client base if the industry outlook is favourable with less uncertainty than is currently seen, or if the owner has undertaken compliant study (while being paid to do so!). This right to purchase back the clients is obligation free & the owner may choose not to exercise this right.
